09ARC 6.7 – WORKING DRAWING

Written by Administrator
Saturday, 31 October 2009 18:00 -

Architectural Drafting-Lettering, Dimensioning lines, Drafting conventions, Title blocks, Office standards, representation of different materials in section. Graphic symbols, drafting and preparing foundation plans, floor plans, exterior elevations, sections, roof plans, interior elevations, site planning and its detailing, schedules of doors, windows, finishes, electrical drawings, water supply and sanitary drawings.

The above drawings need to be prepared for one design project like Residence, Apartments, Factory buildings, Swimming pool etc., handled in an earlier Architectural design studio.

Note – Use of CAD techniques in working drawing may be encouraged.
